A blockchain ecosystem suitable for both entertainment and businesses of all sizes. It boasts unique features such as meta-transaction capabilities, proof-of-authority consensus, and an on-chain governance mechanism.

- Public blockchain
- Staking & Farming Platform
- Token generator Platform
- Token Locker & LaunchpadAnd the most

Roadmap

Phase 1

Token launching

Website launching

Community building

Marketing Campaign

White paper V1

1

2

Phase 2

Audit Cognitos

Release Swap & Staking

AI token generator develop

Locker & launchpad develop

Marketing campaign phase 2

Reach 500 holders

Phase 3

Release Wallet App

Release Testnet

Coingecko & CMC Listing

First cex listing

Blockchain mainnet develop

Kyc and RD Audit

3

100 Mill

$Byte Total Supply

9 %

Every Buy Tax

10 %

Every Sell Tax

2 %

Max token in wallet

Token Supply Distribution

Supply 1

First Add Liq

all tokens are added to liquidity.

C

Staking Supply

Separated for staking platforms.

Stage 3

CEX Marketing & Etc

Remaining supply is separated for CEX Listing, Marketing and Add More Liq.

Thanks!

Community Always Win.
